Physical, Occupational, and Speech Therapy Services are available on an inpatient and outpatient basis through PMH Medical Center, Transitional Care, the Outpatient Therapy clinic, and Home Health. Our objective is to assist patients in achieving the highest possible physical, cognitive, and speech functional levels.

Conditions that may benefit from PMH Therapy Services include injuries due to accidents, neurological disorders, physical disorders, orthopedic conditions, and pain. Following referral from a physician, our therapists design an individual treatment plan in close coordination with the referring practitioner.
